Product Designer with 5+ years of experience designing complex enterprise SaaS products. Skilled in UX, Design Systems, research, prototyping, and cross-functional collaboration, with a focus on simplifying workflows and improving product outcomes.

EXPERIENCE

- **Matchscope.pro** *Aug 2023 - Present*
  Product Designer Pune, India
  - Owned product strategy, UX/UI design, and development, taking Matchscope.pro from concept to a live career preparation platform
  - Designed end-to-end interview preparation and upskilling journeys, translating complex career needs into clear, actionable experiences.
  - Launched and grew the product to 5K+ active users preparing for interviews and developing their skills.

- **Sketchnote Solutions** *Aug 2023 - July 2026*
  Senior Product Designer Mumbai, India (Remote)
  - Own end-to-end UX for enterprise SaaS features, from problem discovery and workflow definition through prototyping, validation, design handoff, and release; contributed to 3 major product features that increased adoption by 45% across enterprise accounts.
  - Conduct ongoing competitive and product analysis to identify usability gaps and strategic opportunities, influencing product roadmap prioritization and market positioning.
  - Contribute to reusable design patterns and collaborate with Engineering to maintain consistency across enterprise workflows.

- **Procreator Design Studio** *Jan 2023 - Aug 2023*
  Associate Senior Designer Navi Mumbai, India
  - Designed the end-to-end experience for ZebPay CryptoPack, including onboarding, investment setup, and portfolio workflows for a fintech product reaching 1M+ downloads and a 4-star app-store rating.
  - Designed and documented a scalable design system for an enterprise learning platform, improving design consistency and reducing developer effort by approximately 30% while increasing delivery efficiency by 20%.
  - Collaborated closely with Product and Engineering teams to define requirements, document interaction behavior, review implementations, and maintain consistency between design and development.

- **Zazzy Studio** *Feb 2022 - Jan 2023*
  UI/UX Designer Pune, India
  - Redesigned complex, data-heavy workflows for 73 Strings, a private-credit SaaS platform used by institutional users, simplifying information architecture and improving usability across high-density enterprise interfaces.
  - Conducted user research and translated findings into interaction models, prototypes, and validated UX solutions that shipped within product timelines.
  - Worked closely with Product and Engineering throughout discovery, design, implementation, and review to resolve constraints and maintain experience quality.

SELECTED PROJECTS

- **Leera HQ** *Link*
  - Designed the end-to-end UX for a visual project management SaaS platform, including workspace organization, task tracking, collaboration, and productivity workflows.
- **Subzero by AXIS BANK** *Link*
  - Contributed to the first version of Axis Bank Subzero design system, defining reusable foundations and UI patterns to improve consistency and scalability across its digital ecosystem.
